

**ACTION AND RESPONSIBILITY**  
COMMITTEE OF  
**SOUTHERN CALIFORNIA INTERGROUP**  
**OF NICOTINE ANONYMOUS**

DATE; July 20, 2003  
TO: SCINA members  
FROM: Action and Responsibility Committee  
RE: July Activity

The following are interview topics suggested for use in discussing progress in expansion and growth of Nicotine Anonymous groups in the southern portion of California:

Hello. My name is (give your name) and I'm a member of the Action and Responsibility Committee for the Southern California Intergroup of Nicotine Anonymous. This is a new committee in your Intergroup and its focus is basically on ways that SCINA can help make all of our groups more effective. We've already started doing some of these things -- our web page is a specific example -- but there are other ways we can help. You may have some ideas of your own that would help us grow. What can they be?

I already know your name and now you know mine. Can you think of any other names in your group who might be interested in a bigger role in Nicotine Anonymous?

Do you already have a delegate to the Southern California Intergroup? If you do, who is it? If you don't, would you be willing to ask for such a commitment at your next meeting?

Do you have any glaring problems that SCINA might be able to address? What is the single most difficult task you face in making Nicotine Anonymous appealing to new members?

Do you engage in any activities that directly relate to Nicotine Anonymous? What are they?

Do you attend our annual meeting and picnic? If not, why not? What would it take to get you to attend?
